

## WebHunt to navigate our General Integrated Science Website

February 2017

Welcome to your **General Integrated Science Year 11** class website;

This year students will balance the use of Web 2.0 tools with STEM skills, inquiry and investigation. The **General Integrated Science Year 11** class website allows all students to access their learning, at any time. Each Webpage holds tasks for completion.

**Tick the checklist as you complete each point.**

1. Find <http://integratedsciencegeneral11.weebly.com/>
  - a. **bookmark** the page.
  
2. This is the [Home](#) page with a **News Feed**.
  - a. Check that you have written the homework in your College diary.
    - i. Complete the homework by the due date.
  - b. Check the Assessment Due Dates for Unit 1
    - i. Record the dates for **Assessment Tasks 1 and 2**.
  - c. What other features can you find on the [Home](#) page?
  - d. Click on the link for [Planning the Investigation](#)
    - i. scroll to the document "Researchable Questions" and ensure that you can tease out the **independent** and **dependent** variables from a testable research question and form an hypothesis.
    - ii. Choose three Researchable Questions from the examples. Form an hypothesis for each and write the independent and dependant variable for each.
  
3. Navigate across to find the [Biological Systems](#) tab and click on it.
  - a. Scroll through the Unit 1 Program and check that it matches your paper copy.
  
4. Navigate across to find the [Mathematical Skills](#) and click on it.
  - a. You will use this document to identify examples of where you use these mathematical skills in this course.
  - b. Complete any part of the checklist that you can already do.

### **Congratulations!**

If you have navigated and explored our General Integrated Science Website and completed the Instructions found there.

You are ready to navigate and steer your course through your science learning this year.

All the best

Mrs Morrill
